ALLERGEN INFORMATION

Max & Erma's is the place where friendly folks and comfort food come together. Our energetic crew has been serving up only the freshest, best quality food in an eclectic atmosphere since 1972.

Known for our best-in-class burgers, signature tortilla soup, fresh-baked chocolate chip cookies and icy cold beer, we've created a fun dining experience for everyone who appreciates great food, great drinks and great people in a great environment.

At Max & Erma's we're constantly updating our menu selections and working with our chefs and mixologists to create the latest food and drink trends for our valued guests.

We'll always try our best to accommodate any special requests and to make substitutions for vegetarian creations (though no meal is vegetarian certified).

For those guests who want to know more about the food we serve, Max & Erma's will provide a Gluten Sensitive menu and an Allergen menu with easy-to-read icons to identify foods that contain wheat, soy, peanuts, shellfish and other allergens.

Some of these items may vary by restaurant and might not be available at all locations. We've obtained this nutritional information from our suppliers, a third-party consultant as well as independent laboratories. This information is effective as of October 4, 2012, and it will be updated with the introduction of each new menu.

Our goal is to provide complete and accurate nutritional information, but due to the handcrafted nature of our menu items, guest substitutions and regional availability of products, some ingredient variations may occur. All items are listed as served, unless otherwise indicated.

Whatever you choose, we promise your dining experience will meet the high standards we continually set for ourselves. Thank you for making Max & Erma's your neighborhood gathering place.
